

With an increase in the use of digital content and instructional activities that require computing devices as tools, ELHS requires students to bring their own personal electronic device that adheres to the BYOD specifications.

Minimum Specified Requirements:

- Devices must have a minimum screen size of 10 inches diagonally (iPad at 9.7” is acceptable).
- Devices must have a physical keyboard either direct attachable or external Bluetooth.
- Devices should have at least 8 hours of battery power
- Devices must be internet capable via wifi connectivity (802.11 n/ac is preferable).
- Devices should **NOT** have cellular capabilities (i.e. 4G or LTE). Smartphones are **NOT** an acceptable device.
- Devices should be able to create and edit common document types (i.e. word processing, spreadsheet, and presentations) either via an application or web browser.
- Devices with digital inking capabilities are highly recommended (touchscreen with stylus)
- Devices should have the current operating system provided by the manufacturer (Windows 10, MacOS, iOS, Android, etc.)
- What are some devices to look for?
 - Windows 10 tablets/ laptops/ hybrid devices
 - iPads with a minimum of 64 GB of storage
 - Apple Macbook laptops
 - Some Android tablets
 - Most Chromebooks
